

Machinery Lubrication MLT1

Did You Know 61% of Bearing Failures are Caused by Poor Lubrication Practices?

COURSE OUTLINE:

In your plant operations, the performance of your machine lubrication plays a critical role in improving the efficiency and reliability of your equipment. This course emphasizes on the fundamental concepts and chemistry of machinery lubrication and how to get the most out of your lubrication program. Grease and oils are the life blood of your equipment and precision lubrication is a proactive maintenance procedure that provides a dramatic return on investment.

Date: 2 - 5 December 2019

Time: 8:00am - 5:00pm

Cost: \$2600
(Lunch & Refreshments Included)

Location: Lakeside Process Controls
2745 Hogan Drive
Mississauga, ON, L5N 0E9

LIMITED SPACE AVAILABLE

AGENDA

- How Lubrication Affects Machine Reliability
- Fundamental Concepts of Lubrication
- Using Additives, Basic Oils and Greases
- Lubricant Properties and Performance
- Food Grade and Ecological Lubricants
- Oil and Grease Lubrication Methods
- Contamination Control
- Emptying, Cleaning/Managing the Reservoir
- Lubrication Handling and Management
- How to Achieve Excellence in Lubrication
- Introduction into Oil Analysis

*MLT1 Certification Exam will take place on the fourth day of training via the ICML

Cancellations: If your plans or budgets change, you may cancel your reservation up to 14 calendar days prior to the start of the course without incurring a cancellation charge. Limited enrollment makes it necessary to charge 50% of the full tuition for cancellations received during the 14 days prior to the start of the course, and full tuition for failure to attend without canceling. Substitutions are accepted until the first day of class. Lakeside reserves the right to cancel or postpone an event due to inclement weather, low enrollment or other unforeseen circumstances.
